

Loss of Control

Loss of Control - Although LOC happens in all phases of flight, approach and landing, maneuvering, and initial climb are statistically, the deadliest phases of flight for LOC accidents. This seminar will discuss ways a pilot can try to avoid Loss of Control.

Why Johnny Can't Fly - LOC accidents stem from many, sometime multiple, catalysts, these will be discussed and covered in this seminar presentation.

Directions: The Board Room is located in the Terminal Building of Terre Haute Regional Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
